## Configuration

Your Human is almost ready to go straight out of the box. All you have to do is give it a name and select a religion. Until you choose a name and faith, your Human will remain agnostic and respond to the name "Human".

**Choose a name** and state the following command: "*Human, your new name is <say desired name>.*" Our database shows that the most popular names are Li, Chen, Zhu, Lin, Human, Wu, Noah, Ethan, Elijah, Say-Desired-Name, Logan, Barack, Landon, Montana, Flash-flood, Augustus, Isaac, Uriah, Vincenz, Herbert and Willie-Diego.

**Choose a religion** and follow the normal procedure prescribed by that religion to enter your Human into the chosen house of worship. Your Human will do the rest. Due to popular demand you can now select *atheism* by getting your Human to read *The God Delusion* by Richard Dawkins. However, a Human operates best when it has a clear religious ideology on which to base its life decisions.

## Common Tasks

At first, interacting with a Human may seem weird, but don't worry. Here is all you need to know to take the first steps.

### Conversation

Your Human is happy to engage you in conversation on a wide range of topics. We're sure you'll be pleasantly surprised by the quality of your Human's banter. Here are some ice-breakers to get you going.

- Hi Augustus, how are you?
- Some weather we're having.
- Penny for your thoughts.
- Did you see *Two and a Half Men* last night?

Please note that your Human may not wish to talk about some issues for religious or personal reasons. This is by design and is not an indication of malfunction.

## Sexual Intercourse

Your Human is capable of a rich and fulfilling sex life. For optimal results, it is best to become friends with your Human first before progressing to a sexual relationship. If drunk or lonely, your Human will engage in meaningless sex. This may result in unforeseen, negative consequences.

## Watching TV

There's nothing your Human loves more than to zone out in front of the TV. Each Human has its own tastes, so you'll need to negotiate who controls the remote. If you have any trouble coming to an amicable arrangement, we suggest purchasing the Humanico *Personal TV Recorder*.

## Troubleshooting

Before contacting us with any potential problems you encounter during the day-to-day operation of your Human, please consult this list of common problems and their solutions.

**Will my Human play nicely with other Humans?** Yes, but many factors can affect the way your Human responds to other Humans. Ensure adequate socialisation, avoid abusing your Human where possible and spend time strengthening your relationship with your Human. For example, go out for dinner together, or do those little things that show you care.

**I don't like the colour.** Unfortunately, the colour of your Human is not alterable, and we cannot offer an exchange or refund under these circumstances.

**My Human is complaining about persistent feelings of loneliness and isolation. Is this normal?** This is a common problem and will resolve itself as your Human develops wisdom and perspective. If the problem becomes exacerbated in the short term, administer a small amount of alcohol to your Human to numb the feeling of inescapable nothingness.

**I tried calling my Human on its iPhone but we couldn't connect.** Chances are that mobile phone coverage may not be good in your area. Please contact your network operator.

**It's been 6 months and my Human is still unemployed.** First, ensure that the problem is not an unfavourable job market. If employment is readily available, consider enrolling your Human in adult education classes. It could even be something fun you can do together.

## **Warranty**

Deal with it.
